EDUCATION

Master of Science, Information Technology Management

Western Governors University | Salt Lake City, UT

PROFESSIONAL EXPERIENCE

IT Security Analyst I – xxxxxxxxxxxxxxxxxxxxxxxx | Atlanta, GA **Feb 2025 – Present**

- Led the security design and implementation of access control, authorization, and policy management for a statewide case management system, using AWS tools like IAM, KMS, and Guard Duty, and Azure Active Directory and Security Center, to ensure strict compliance.
- Developed comprehensive documentation and policies to harden the organization's IT environment, including internal security policies to standardize practices and enhance compliance.
- Monitored and triaged security alerts using tools like Microsoft Defender, Wiz, AWS Guard Duty, and Hunters to identify and investigate potential threats and vulnerabilities.
-

IT Security Analyst I – xxxxxxxxxxxx | Atlanta, GA **May 2024 – Feb 2025**

- Conducted comprehensive cloud security assessments and attack surface management, including adversarial simulations and red teaming, to identify and fix critical vulnerabilities in production systems.
- Evaluated and remediated security vulnerabilities across 266+ devices, providing detailed reports with actionable recommendations to enhance system and application security.
- Achieved a 100% completion rate on POAMs by addressing security gaps, coordinating external assessments, and resolving audit requirements with high satisfaction.

Information System Security Officer – xxxxxxxxxxxx Ft. Moore, GA **Aug 2023 – Jan 2024**

- Led a team of three information security professionals in implementing and maintaining advanced security measures, reducing security incidents by 30%.
- Enhanced security protocols at Fort Moore HQ G-3 section reduced security incidents by 40% and ensured full compliance with DoD policies and standards for 231 systems and 193 user accounts.
- Streamlined patch management, vulnerability monitoring, and antivirus updates reduce cybersecurity risk and enhance threat detection and response.

Security Engineer Intern – xxxxxxxxxxxx | Tustin, CA **Aug 2022 – May 2023**

- Supported senior engineers in 37 vulnerability assessments and penetration tests, identifying and mitigating critical security gaps.
- Assisted in configuring and managing security tools like Tenable, Burp Suite, Metasploit, Splunk, and SIEM platforms to enhance threat detection and response.
- Participated in incident response, analyzing over 23 incidents to expedite resolution and enhance security.
